| 3.4.2018 | ASSEMBLY | 10 | <p>The assembly was conducted by Grade 10 in the month of April 2018. It began with the prayer and news followed by a short video which opened the eyes of the viewers to the internal working of the media and the hard work that goes into reporting. After this, a series of three skits was presented, the first of which depicted that news anchors only wish to show spiced-up celebrity news instead of news that represents the grievances of the poor. The second skit showed how paparazzi attacks politicians and turns their small acts into national and international headlines. The third skit portrayed the reason for political influence on media, i.e. shortage of funds for those media houses not supported by politicians as no one pays heed to genuine news. This was succeeded by a debate concerning the autonomy and functioning of the media. The assembly was concluded with a dose of laughter, a stand-up comedy session based on media.</p> |  |
