

Kothari International School

Grade 1

Activity: Movie Review

The students of Grade 1 participated in the **'Movie Review'** activity which was organized on 11th December 2020 by Kothari International School. Communication is the backbone of any society. It allows us to form connections, influence decisions, and motivate change. Public speaking is one of the most important forms of communication. Keeping this in mind the students were given a set of movies to watch and then present their own review of the movie with respect to the movie plot, learnings, likes and dislikes, problems and solutions. The students expressed themselves with a lot of passion and enthusiasm and the platform provided fillip to the public speaking and comprehending skills of the students. The activity was appreciated by all including the teachers and guardians.
