

KOTHARI INTERNATIONAL SCHOOL

Story Weaving

Grade 3

Students of Grade 3 had the most engaging story weaving session on December 4, 2020. Story weaving activity demonstrates the art of writing a story, layering new ideas to build an interesting plot, presenting different characters and their lives in our own imaginative ways. Students composed beautiful stories using their imagination and infused life in their fictitious characters with their thoughtful and intelligent narration. Each story showcased creativity of students, their expressions coupled with amazing illustrations. It was a bliss watching children expressing their ideas and imagination in such a delightful way.
