

Story Telling Activity

'No story lives unless someone wants to listen'- JK Rowling.

Students of Grade 11 began the year by conducting a successful storytelling activity on 8'th January, 2021.

The online event took place on Discord and began with a discussion on how stories play an integral role in our daily lives and how they impact us in imperceptible ways.

The hosts, teachers and participants shared how reading books, and listening to their parents or grandparents telling them stories when they were kids shaped their childhood and ignited their interest in reading.

There's never a right way to interpret a story, each story means something different to each person listening to it, and this is what our participants highlighted.

Each participant narrated a story written in the English language by an Indian author like B. Wordsworth by VS Naipaul, The Editor by Guru Rabindranath Tagore and Midnight's Children by Salman Rushdie among many others.

The participants gave their personal opinions about the stories, alongside expressing what the story meant to them, and what they took away from it.

Through this activity, not only the participants but the viewers also revisited some of their all time favourite stories.

The event was concluded with a vote of thanks and an appropriate note by the Principal.
