

Kothari International School

Grade 1

Activity: News Reporters In Making

The benefits of learning to speak confidently in public at the youngest possible age can pay huge dividends across all areas of our lives as we get older. To enhance the oral communication and influencing skills, creative and critical thinking, social connections and capacity to adapt to the demands of speaking situations, **Grade 1** organized an activity '**News Reporters In Making**' on **19th February, 2021**. The students acted as news reporters and spoke national, international, sports and weather news using various props. The flawless news reporting and presentation by students was laudable.
