## Grade 3

### General Knowledge Quiz Competition (Intersection)

Students of Grade 3 participated in an online general knowledge quiz competition to highlight the imperative need of having a good understanding of the things across all the spectrums. The students exhibited great interest for learning different domains of inventions, great personalities, countries, culture, art, places etc. It is rightly said that general knowledge can be of great importance to all of us. A person with good general knowledge always conquers the discussions and wins everyone with his knowledge. Besides this, a good general knowledge gives you a great understanding of everything going around you and also helps you in making wiser and fruitful decisions in life. The importance of general knowledge spans itself way beyond knowing the answers to a trivia and general quizzes. Needless to say, this quiz and the entire process of learning things apart from their academic curriculum did help the students to grow both on personal as well as academic level.
