KIS/AUG/2021-22/105

Date: 11.8.2021

‘Competition makes us faster; collaboration makes us better.’

Dear Parents,

Countingwell Maths Premier League is a Maths skill tournament for students studying in grades 6-7-8. Starting from 15 August, 2021, students will be required to complete a weekly Maths course, take a Weekly Test on a Sunday to score runs and increase their chance to qualify for the MPL Finals on 19 September, 2021.

Students have a chance to win weekly cash prizes, the bumper cash prize and Countingwell premium subscriptions.

To participate, students must do the following:

1. Download the Countingwell app on their mobile phones and register themselves. They can download the app from <https://t2m3p.app.link/direct-install>
2. Once they download and login to the app, they will see a card that says Maths Premier League – clicking on this card will help them with more details.
3. Students must spell the school’s name correctly while registering themselves.
4. Participants can start preparing for the event even now. Actual event will start from August 15th. The full schedule is available here: <https://countingwell.com/mpl/index.html#down>
5. There are no fees to participate in the event.

Warm regards
Dr. Sangeeta Arora
Principal, KIS
