9 JULY 2021	'UNDERSTANDING TRUE POTENTIAL'- Online Session	Gr 6-8	<p>In today's highly competitive world, there is a lot of pressure on young learners to perform their best. If the student is aware of what they can and where they need to improve, the journey towards the path of success becomes a little smoother. With this notion in the mind, the Counselling Department of Kothari International School- Standing Together organized a session for students of Grades 6-8 on 'Understanding True Potential'. The Resource Person for this session was Mr. Nikhil Arya who at the young age of 21 has been doing a lot for society.</p> <p>Students were helped in understanding that everyone has the potential to achieve greater heights in life and once we realise our value and what we are capable of, there is no turning back.</p> <p>As a small child, it all starts from discipline. One should target all tasks they have on their plate and accomplish them one by one. Procrastination (explained to students) is one habit that brings down our productivity</p>	

			<p>and we tend to lose out on a lot of time because of this. Whatever is to be done in a day should be finished that day only, if we are going to take it on the next day then our workload becomes a lot.</p> <p>By observing people who are able to manage their lives properly can also teach us a lot. One can learn a lot from others and then introspecting who we are can really lead us on the path towards achieving great potential.</p> <p>Examples of Napoleon Bona Parte and Akbar were also used to help the students in grasping the concept properly.</p>

<p><u>15 JULY 2021</u></p>	<p><u>MINDFULNESSAND POSITIVITY- Online Assembly</u></p>	<p>Gr 8A & 8B</p>	<p style="text-align: center;"><u>MINDFULNESSAND POSITIVITY</u></p> <p>Being mindful prepares you to surmount your obstacles, and being positive transforms your obstacles into opportunities!</p> <p>Standing by these thoughts, Classes 8A and 8B presented a live assembly on 'Mindfulness and</p>	

Positivity'; students augmented the significance of these two attributes in a person's life. By the medium of a class assembly, they triumphantly succeeded in putting across the audience that mindfulness can facilitate our day-to-day tasks and help us become more discerning and productive in life. It leads us to broaden the periphery of our benevolence and contribute to a good cause. Through an allegory, they depicted the theory of positivism, which has been heard, practiced, and exemplified. Being positive can calm us in the most uncalming situations and help us see through the turbulences we may encounter. Students captivated the audience with their thoughts twined together in the form of a self-composed poem. They apprised the audience of the mighty secrets that can lead us to positivism and inner peace. Towards the closure, the assembly also accented the need for self-talk in one's life and how self-talk unravels that we all are one of our kind. The self-talk presentation also encouraged us to identify and respect our abilities and embrace DIVERSITY, one of the most significant fruits of

			mindfulness and positivism.	
25 JULY 2021	<u>ZERO SHADOW DAY</u> <u>OBSERVATIONS MEETING</u>	Gr 6-10	<p>Kothari group of schools in collaboration with IUCCA organized a doubt clearing session for the schools participating in ZSD event. Each school was asked to identify 5 students and make them join the session in order to understand how the collaborative project of calculating the circumference of earth can be carried out. Sonal Thorve of IUCCA conducted the session and offered solutions to the students on how to observe the measurement of shadows, take readings and calculate the circumference of earth.</p>	

<p>29 JULY 2021</p>	<p><u>ORIENTATION FOR GRADE 10 – 2021</u></p>	<p>Gr 10</p>	<p>An orientation session for the Grade 10 students and their parents was conducted to apprise them about the current scheme of Boards announced by the CBSE Board.
