## STUDENT PORTFOLIO BUILDING Grades 9-12

Dear Parent

*‘If we were meant to stay in one place, we’d have roots instead of feet’ ~Rachel Wolchin*

Nowadays, students are keen on exploring diverse areas and are working hard towards it. At KIS, we encourage the holistic development of students, and prospects to grow in numerous spheres are provided. There are various opportunities and if managed wisely, one can benefit from them.

A strong Student Portfolio can make the student stand apart amongst various admission seekers at college level.

We would motivate you and your ward to be proactive and take up the benefits of various opportunities shared with you. To name a few, following are the programs which can add a lot of value to the Student Portfolio-

- Workshops on various topics
- Short Term Online Courses
- Subject Specific Internships- students can check with their subject tutors for these opportunities
- Community Outreach Program with various NGO's like Humari Pehchan, Saksham Bharti
- IBM Skills Build Program
- School blog/ e-magazine contribution
